

Petition

(for one person)

I support the People's of Illinois demand for immediate start of restoration of Lake DePue, and removal of the slag pile and other hazardous substances from the plant operation's site and DePue community. I also support strict enforcement of all requirements of the Illinois Attorney's General 1995 Interim Consent Order which mandates ExxonMobil, HH Liquidating Corporation and CBS Operations, Inc. to plan, implement and pay for the above activities.
